Elemental Healthcare

Advancing Innovation Together

FastClamp™

Laparoscopic Clamping System

For over 30 years Surgical Innovations have been at the forefront of Minimally Invasive Surgery.

As surgical techniques continue to evolve, the demand for solutions which align to those advancements is key, whilst reducing the **impact on the environment**, as societally we become more aware of the footprint the provision of healthcare generates.

FastClamp™ is a **fully reusable**, Laparoscopic Clamping System designed to fixate a wide range of 5mm or 10mm instrumentation in position during Minimally Invasive Surgery.

The **fully adjustable system** offers multiple degrees of freedom, allowing instruments to be securely locked in position whilst ensuring users achieve the appropriate configuration in an unobstructed, timely and uncomplicated manner.

This cost-effective solution also complements our **PretzelFlex™** technology, allowing the positioning of this device during long periods of surgery.

Laparoscopic Clamping System

Functional Camera Holding For Solo Laparoscopic Surgery

Multiple Degrees Of Freedom

Accommodates 5mm & 10mm Instrumentation

Complements PretzelFlex™ Liver Retractor

Ordering Information

Complete System	
Product Code	**Product Name**
A-1000	FastClamp™ System
A-1001	Extended FastClamp™ System

Table Clamp Options	
Product Code	**Product Name**
TC-1000-01	Table Clamp
IC-1000-01	Instrument Clamp
IC-1001-01	Extended Instrument Clamp

Bar Options	
Product Code	**Product Name**
BC-1030-01	300mm Bar
BC-1050-01	500mm Bar
BC-1070-01	700mm Bar
BC-1090-01	900mm Bar

Laparoscopic Clamping System

Leading the Evolution

In Sustainable Surgery.
